

The 12 colors from Magenta to Violet

Color brings movement to our interior being. In the world of nature around us, color is movement.

The colors are born between the light and the darkness/warmth of the earth's atmosphere, from the unceasing encounter, at times dramatic, of these two great realities. When the atmosphere is moist, heavy and not luminous, the colors are less transparent, less brilliant and sluggish. Instead, when the atmosphere is crystalline, light and dry, the colors are more brilliant, clean and active.

We shall try to experiment, starting from the observation of nature, these qualities of the light, color and darkness/warmth: how they live in the world around us and how they are transformed inside us.

March, 2nd – 5th 2023

Magenta – fuchsia, the wild carnation. It appears like a breath on the face of newborns just after their birth

Carmine – the rose, the ruby, the splendor of life, the warmth of ideals.

Vermillion – fire, the geranium, the tomato, the moon rainbow, divine ire.

Orange – gold of the sunset, the bee, apricots, autumn, enthusiasm, awe, gratitude.

April, 26th – 29th 2023

Yellow – the color that permeates the entire world: "I arise from wisdom." A ray of intense joy.

Yellow-green – the leaves of the birch that have just sprouted in the light of spring, the lightness of butterflies, the interior of a dashing wave, rhythm.

Green – the emerald, the green ray at sunset, in the rainbow, experience of eternity.

Turquoise - the shadows on snow and in ice, crystals, the moral world of divine ideas.

dates to be determined **Cobalt blue and ultramarine** – the blue sky, forget-me-not, the core of a candle's flame, Mary's mantle, devotion.
Indigo – smoke, clouds, ashes, basalt, smoky quartz, from solitude to Unity.
Violet (purple)– the violet flower, the clematises, iris, the amethyst. Seriousness, zeal, balanced ardor. A lake of compassion. The altar of the earth.
The twelfth color – the heart's color

Technique: perception exercises with colored pencils and watercolor painting on moist paper.

Schedule: 9,30- 12,30 14,00 – 17,00

Cost: Participation fee is € 340,00, materials included for each four-days course
